

Above Our Highest Praises (F#)

Music and Lyrics written by Arlyn Sataneek

Verse 1

Full of power and wisdom
You flung stars
In the dark, and named them
With one breath
The universe spins
You measure it all
In the width of Your hand

Verse 2

By Your rhyme and reason
You wound earth
In time and seasons
You drew lines
That the tides obey
And draw our hearts
With a whisper of waves

Chorus

God You have made us
All of earth and heaven
You are above our highest praises
Oh how You amaze us
God of infinite greatness
You are above our highest praises

Verse 3

With the eyes You gave us
We see You
In Your creation
Nature claps
To the beat of Your pulse
And we join in
Caught away by the song

Bridge

Author and Maker
Ancient of Days
God our Creator
High above all praise

Ending

Oh how You amaze us
God of infinite greatness
You are above our highest praises
